Commercial Account Programs:

Lighting Rebates - Motor Rebates – Energy Audits - Energy Efficiency Improvement Rebates - Revolving Loan Fund - Questline Newsletter – Outage notification

Lighting Rebate

- For replacing older lights, rebate of \$1 per watt reduced (up to 50% of project cost) with a maximum \$2,000 rebate.
- Funding is limited and subject to availability. Pre-approval is required.
- Retrofit applications. Interior only.
- Details and specifications apply. CALL FIRST for details.

Motor Rebate

- Rebate of 10% of project cost, up to \$1,000.
- Excludes labor, miscellaneous hardware and fittings.
- Must be an energy improvement that reduces kWh energy and/or kW demand (ie, higher efficiency motor, variable frequency drive, etc).
- Retrofit only; details and specifications apply. CALL FIRST for details.

Energy Audits

- Basic walk-through and consultations at no charge.
- 75% rebate up to \$3,000 for a professional energy audit by an outside firm. Call first for details.

Energy Efficiency Improvements

- Rebate up to \$2,000.
- Requires energy audit first (see above). Energy efficiency improvements must be based on audit recommendations and must improve electric energy efficiency. Other details apply.

Revolving Loan Fund

- Interest rate of prime minus three points, but not less than 2%.
- For job creation projects in rural west central Ohio.
- The project must have a minimum of 10% of equity infusion as well as support from a bank.
- Other requirements apply.

Questline

- A free technical and business assistance “hotline” and a twice-monthly electronic newsletter to reduce costs and identify revenue-generating opportunities. Topics include:
 - Technology/Process Assistance, including shop floor troubleshooting; assessment of new technologies; material/equipment substitution.
 - Energy Issues, including power quality and power analysis; motors/drives/lighting; energy efficiency determinations.
 - Materials Information (plastics, metal, etc.), including joining/bonding/welding; material properties; machining.
 - Resource & Service Searches, including equipment suppliers/material vendor; retrofit/repair of machinery; the buy vs. repair decision.
 - The Ask an Expert feature enables you to communicate directly with a highly-qualified Questline researcher, engineer or development expert – again at no cost to you. Questline gets you information quickly – usually within five business days or less.
- To experience the Questline electronic newsletter at no cost, simply call 1-800-962-3830.

(SmartHub) Outage Notification & Detailed Energy Use

- Online Registration for your PC or mobile device
- Detailed information to assist with electric usage.
